

Viox Services

An EMCOR Company

HVAC Services

Local Presence, National Reach

A wholly owned subsidiary of EMCOR Group, Inc., Viox combines the personal attention of a hometown contractor with the problem-solving resources and expertise of a national firm. Backed by 60 years of experience, we offer **high-quality construction, electrical, plumbing and HVAC services, as well as custom casework, complete grounds maintenance, and integrated facilities management.** To all of this, we add EMCOR's financial strength, worldwide knowledge transfer network, and broad range of cross-industry solutions that effectively address today's most significant facilities challenges. The result is a one-stop solution for a full range of facilities needs.

Your single source for complete HVAC service that meets your most exacting standards, your most rigid specifications

As a single-source provider of responsive, high-quality HVAC services, Viox has the skills and capabilities you need to meet a full range of system and equipment requirements. Whether you need complete replacement of your current systems or emergency service, our expert technicians provide knowledgeable and reliable assistance 24 hours a day, seven days a week. Highly trained and highly skilled, you can depend on them to keep your systems running at the high-performance levels you need to succeed in today's complex environment.

Our HVAC service includes:

- Direct digital control system installation and maintenance
- Detailed MC2 estimating
- Value engineering and constructability analysis
- Clarification of codes, as well as state and federal requirements
- Chiller and cooling tower maintenance
- Specialized equipment installations for data & communication rooms
- Customized planned HVAC maintenance programs
- Design/build services
- Equipment repairs, replacements, and retrofits
- Air filtration & indoor air quality
- Environmental control systems
- Facility automation systems
- Energy audits and integrated management systems
- Insulation of ductwork & refrigeration piping
- Ventilation
- Sheet metal installation & modification
- Refrigerant management
- Testing, calibration, and air balancing
- Thermal scanning & vibration analysis
- Welding & piping capabilities
- Commissioning services
- 24-hour emergency service

Regardless of what you need or when you need it, you can count on Viox for HVAC service that meets your most exacting standards, your most rigid specifications.

To provide consistently high-quality HVAC service, our technicians undergo continuous training. In addition to Associated Builders & Contractors' four-year apprenticeship program, vendor and manufacturer seminars, and our own Viox Project Control System and Audit Procedures sessions, they also attend regular code update and OSHA Safety (10 hour and 30 hour) presentations. To all of this, we add more specialized offerings, such as lockout/tagout, fall protection, lift, and confined space training. This program helps ensure that our service is delivered by technicians who know how to keep your equipment operating at **the consistently high-performance levels required for maximum productivity, energy efficiency, and comfort.**

Think end-to-end services

Reliable, expert project management that frees you from doubts, worries, and downtime

From pre-construction meetings through project completion, our experienced project managers provide responsive, attentive, and knowledgeable project oversight. Right from the start, they work with you and your authorized personnel to thoroughly understand your project and its objectives. Then, using the Viox Project Control System, they maintain ongoing communications, continuously track work progress and budget details, and ensure the highest standards of safety and quality. It's the expertise you need to keep your project on time and within budget, while freeing you from doubts, worries, and downtime.

Our project management capabilities include:

- A commitment to meeting scheduling and budget criteria
- Ongoing budget and schedule monitoring
- A single point of contact for managing all project activities
- The skills and expertise required to handle your project dependably, while you concentrate on your core business and its success
- Continuous cost control
- Experienced professionals to oversee safe and proper project completion

A passion for safety and quality

Viox is passionate about safety and quality. In addition to the Voluntary Protection Program's STAR designation, our ZERO Accident Program (ZAP) has led to safety performance that's 5-to-10 times better than the national average. We've also received numerous industry awards for safety, project excellence, and overall performance. Recognition like this is one of the many reasons you can rely on Viox for consistently safe, high-quality project delivery.

WHO'S ON THE INSIDE LOOKING OUT FOR YOU?

When Viox is on the inside looking out for you, you get **creative solutions and customized care designed to keep your systems running at optimal performance levels, while meeting your HVAC service needs from one end of the critical path to the other.** The result is high-quality, high-performance systems and facilities that improve your overall productivity and quality of operations, so your business can perform at a higher level.
