

Efficient Solutions To Reduce Plant Downtime

Viox Services helps manufacturers get the most out of their equipment through our core maintenance program designed specifically for the manufacturing industry.

With nearly 70 years of experience in facilities maintenance, Viox Services combines our knowledge and technical expertise to help customers **work through the daily manufacturing hurdles** of an unsteady workforce, over-spent budgets, and variable quality **to maximize productivity and efficiencies in their production processes.**

Our program is designed to give our clients increased reliability and reduced downtime. We look at their manufacturing process as a whole, and work to find solutions, not just quick answers—to optimize their manufacturing process. We work with production to reduce and eliminate the unplanned outages.

We do this through the following measures:

Key Benefits:

- Increased Reliability
- Reduced Downtime
- Increased Safety
- Reduced Expenses
- Improved Quality
- Consistent Spending

Operational Improvements

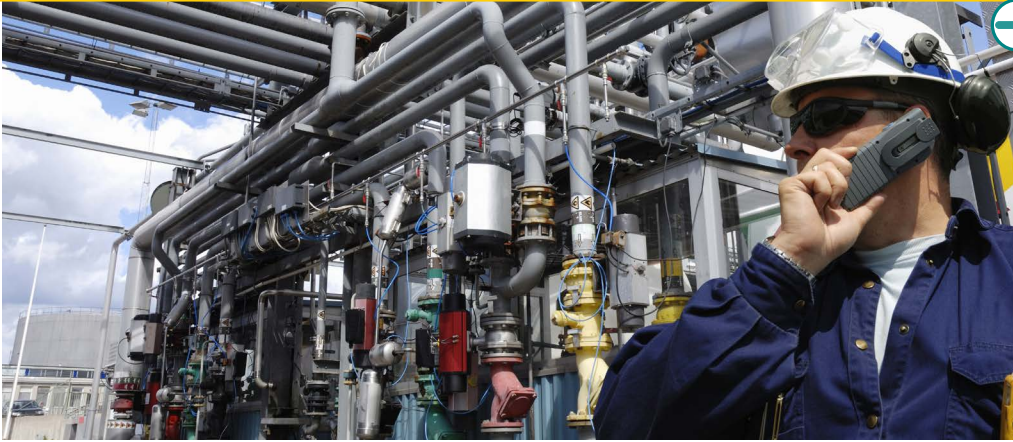

- » Streamline workflows
- » Apply Reliability Centered Maintenance using a suite of preventive and predictive maintenance strategies
- » Ensure ISO and GMP standards
- » Implement lean philosophies

Data Mining

- » Capture all equipment data in CMMS
- » Improve equipment replacement process through analytics
- » Reduce material spend through analysis

Stabilized Workforce

- » Recruit and retain multi-skilled workers
- » Increase safety awareness and performance
- » Develop and provide employee training

Viox is about Service:

- » We self perform 75% of all contracted work with our own trained and certified technicians.
- » With over 2,000 associates on staff and a mobile maintenance workforce exceeding 600 vehicles we cover over 6,000 geographically dispersed customer locations across the US.
